This document provides an overview of the recognitions and memberships held by The International Stock Exchange [TISE].

The recognitions and memberships demonstrate our credibility as a mainstream international stock exchange and in doing so, provide market participants with additional comfort in utilising TISE for listing and trading services.

The recognitions and memberships may also provide other benefits, such as widening the potential investor base for TISE listed securities.

These recognitions and memberships place TISE amongst other leading capital markets participants and as such, at the centre of European and global policy discussions in relation to a range of capital markets initiatives. We are delighted to be able to play an active role in contributing not only to the flows of capital globally but the development of the financial market ecosystem internationally.

This document is intended to act as an overview of the recognitions and memberships and their principal benefits. These are not intended to be exhaustive but to act as a catalyst for further enquiry. We also welcome feedback on other recognitions or memberships which market participants believe to be beneficial for themselves or their clients in conducting more business on TISE.
