Innovation

In addition to being a well known venue for listing bonds, TISE is also a listing venue for investment vehicles, including funds, REITs and ILS. We accept vehicles from the plain vanilla to those investing into more alternative and esoteric asset classes.

Investment vehicles and trading companies can be traded on exchange through our auction system NOVA, by market maker or order driven matched bargain basis.

NOVA
TISE Trading System

The most comprehensive sustainable segment in Europe provides visibility to both securities and issuers who demonstrate their environmental, social or sustainable credentials.

TISE is not only home to equity issuers, such as social housing REITs, but also green bonds, sustainable bonds and sustainability-linked bonds, as well as other sustainable issuers, with more than £25 billion listed on our market supporting a more sustainable future.

With a straightforward application process and no additional fee, the segment is available to all TISE-listed securities and issuers who meet the qualifying criteria, including those with a credible transition plan.

TISE is a Partner Exchange of the United Nations' Sustainable Stock Exchanges initiative (UN SSE) and is committed to being part of a sustainable capital markets ecosystem.

Why list on TISE?

REITs

REITs, both institutional and retail, can take advantage of our pragmatic and transparent admissions process.

REITs are exempt from the normal free-float rule requiring 25% of the issued share capital to be held in public hands.

Recent trends suggest TISE is also attractive to more widely held REITs and this interest is expected to increase with use of our bespoke auction system, NOVA.

Funds

We have a presence in some of the most well established and highly regarded international investment fund centres and a breadth of connections across the global funds sector.

As such, we have developed significant experience working alongside the industry, in listing both open and closed ended investment vehicles. Our Official List includes securities from some of the world's leading promoters such as Ashmore, Global Diversification Fund, Investec, Man Group and M&G.

Trading Companies

We offer certainty of listing requirements, including a freedom from EU legislation and regulations, which enable a proportionate and cost-effective approach that has been particularly tailored for SMEs.

The convenience of TISE allows an issuer to become familiar with the requirements of being quoted so that it is better prepared for the transition to being listed on a major global exchange, where appropriate. In that sense, we might be viewed as an 'incubator exchange'.

Specialist Companies

We are equipped to support the listing of equity securities issued by Specialist Companies, including SPV holding companies and closely held REITs, which are intended to be held by qualified investors. Specialist Companies are typically structured to support specific investment purposes where no active trading is intended. By offering a streamlined and globally recognised offering, our pragmatic approach to disclosure requirements provides investors with proportionate information without imposing unnecessarily onerous demands on issuers.
